Commentaren

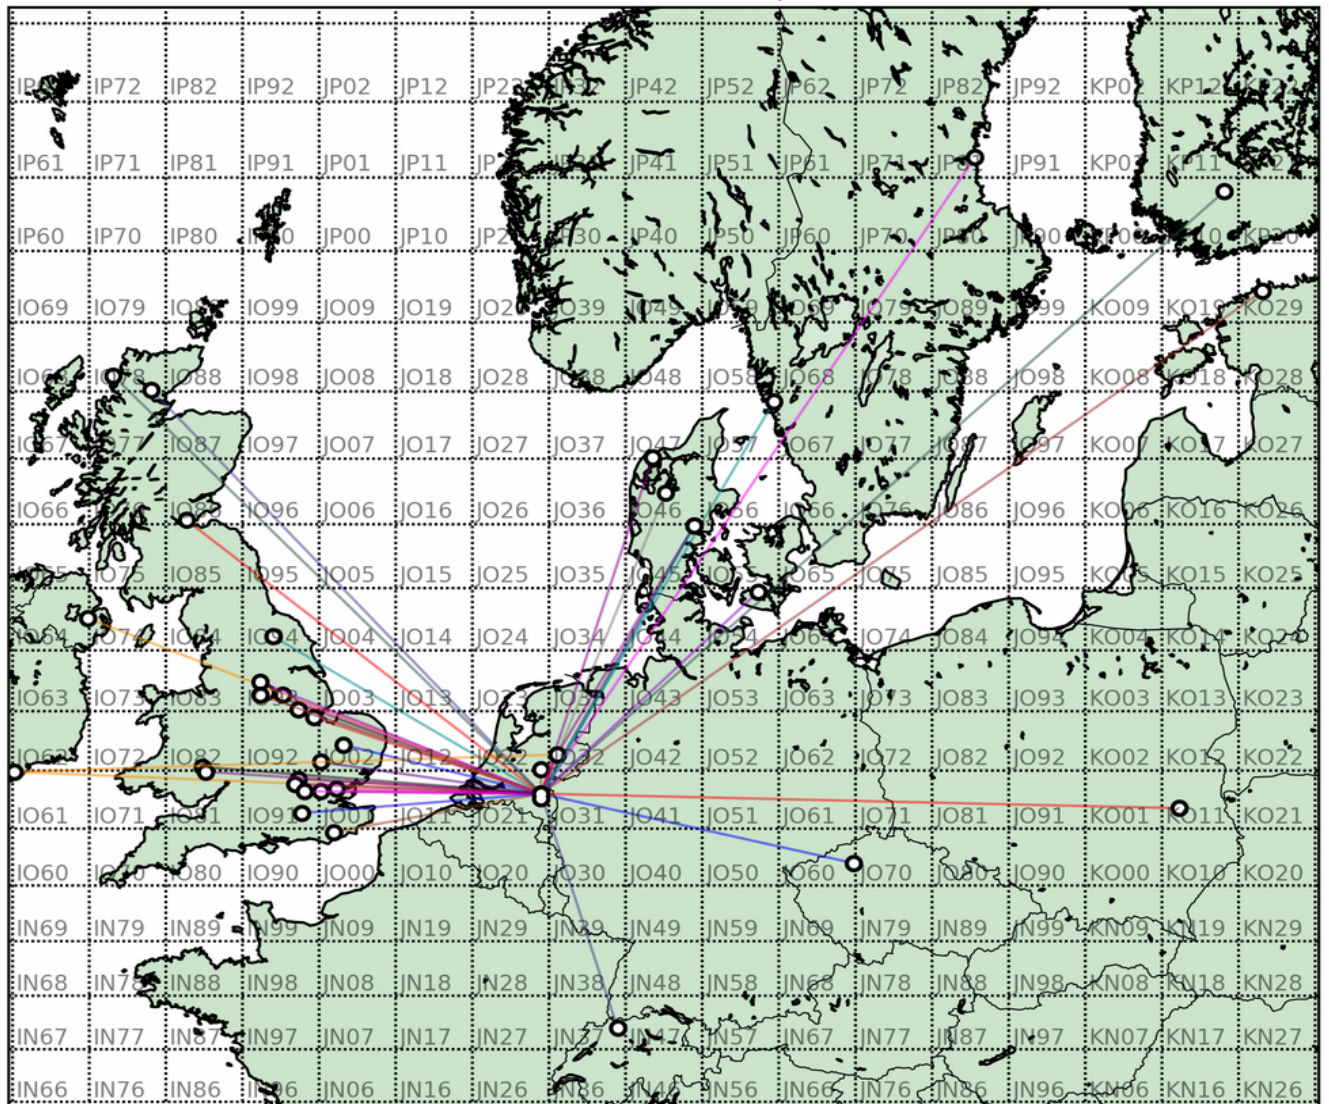

PA0FEI:

De condities op 2 meter waren niet geweldig, maar de activiteit maakte dit aardig goed. In het algemeen is het 'rendement' van CQ roepen bij mij niet geweldig. Deze keer pakte het nog aardig uit, omdat er onder andere twee F's terug kwamen, een land wat ik in deze contests nooit werk.

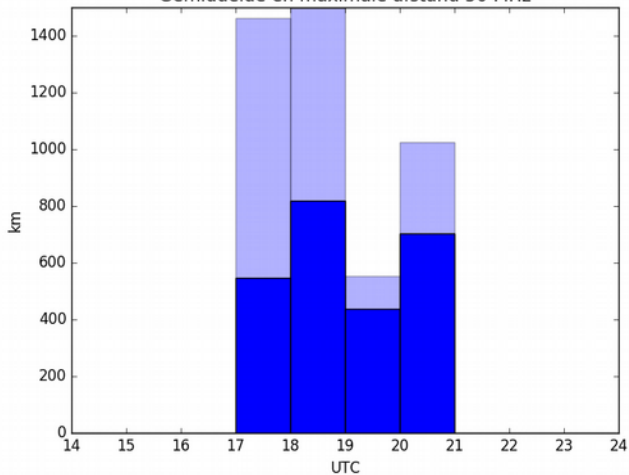

In de 70cm contest waren de weersvooruitzichten ronduit onheilspellend, maar de 'ellende' bleef hier beperkt tot veel regen. De condities waren daardoor wel miserabel slecht deze keer!

Op 23 cm matige condities, maar met hulp van de ON4KST babbeldoos konden enige QSO's worden geregeld.
